NEW WAY OF FARMING

Products

Highlights

5L Garden Spray Pump – Your Green Thumb's Best Friend

- ✓ Big on Capacity, Easy on Effort – With a generous 5-liter tank, cover more ground without constant refills.
- ✓ Strong, Even Spray – Adjustable nozzle for mist or jet spray. Perfect for pesticides, fertilizers, or just watering.
- ✓ Pump It & Go – Manual pump with ergonomic handle and pressure release valve makes operation smooth and safe.
- ✓ Built Tough for Outdoor Work – Durable, UV-resistant plastic body built to last through every season.
- ✓ Strap It, Spray It – Shoulder strap for easy carrying during long gardening sessions

2-in-1 Garden Spray Pump – Twice the Function, Half the Effort! 🌿

16L Multi-Use Sprayer for Every Garden Need

- ✓ Spray Your Way – Hand pump and battery-operated functions in one! Switch between manual and electric mode anytime.
- ✓ 16-Liter Capacity – Perfect for larger gardens or longer tasks. No more constant refills!
- ✓ Precision Spray Control – Adjustable nozzle for fine mist or focused stream – ideal for fertilizers, pest control, or cleaning.
- ✓ Ergonomic & Portable – Comfortable shoulder strap and non-slip handle for effortless spraying.
- ✓ Durable & Leak-Proof – Built with high-quality materials to handle both home gardens and commercial tasks.
 - 🔋 Battery mode for effortless spraying
 - 🖱️ Manual mode for control on demand

🔋 DOUBLE MOTOR POWER. MAXIMUM SPRAY FORCE. 🌿

Heavy-Duty Battery-Operated Garden Spray Pump – 6L/20L Options Available

- ✓ Twin Motors = Double the Pressure – Delivers powerful, consistent spray even on tough terrain or tall crops.
- ✓ Effortless Operation – Just press and spray. No manual pumping needed – save your energy for the garden!
- ✓ Adjustable Nozzle & Flow Control – Fine mist to direct jet –

Manual Garden Spray Pump – 16L of Pure Performance

- ✓ No Batteries. No Hassle. – Manual pump action gives you full control over pressure and spray flow.
- ✓ 16-Liter Tank – Big enough for full garden coverage, light enough to carry with ease.
- ✓ Adjustable Nozzle – Switch from a gentle mist to a sharp jet with a quick twist.
- ✓ Comfort Grip & Shoulder Strap – Designed for long use with minimal strain.
- ✓ Strong & Leak-Proof – Built from durable, chemical-resistant materials for long-term use.

NEW WAY OF FARMING

4-Stroke Engine Spray Pump – Built for Heavy-Duty Spraying

- ✓ Powerful 4-Stroke Engine – Delivers strong, consistent spray pressure for large-scale farming or commercial use.
 - ✓ Fuel-Efficient & Low Maintenance – No mixing oil and petrol – clean running, longer engine life.
 - ✓ High-Pressure Output – Ideal for tall trees, wide fields, and high-demand applications like pesticides, herbicides, and foliar nutrition.
 - ✓ Robust Frame & Brass Pump – Heavy-duty construction ensures durability, even in rough conditions.
 - ✓ Easy Start & Smooth Operation – Reliable recoil start and low vibration for user comfort.
- ✦ Perfect for agriculture, orchards, tea gardens, and more.

Spray Pump Comparison (Simplified)

Type	Power Source	Best For	Spray Power	Ease of Use
Manual Pump	Hand Pump	Small gardens, home use	Moderate	Easy
Battery-Operated	Rechargeable Battery	Medium gardens, light spraying	Consistent	Very Easy
2-in-1 Pump	Manual + Battery	Versatile home & garden tasks	Adjustable	Very Easy
Double Motor	Dual Battery Motors	Large gardens, extended use	High Pressure	Very Easy
4-Stroke Engine	Petrol Engine (4-stroke)	Farming, orchards, tall crops	Very High Pressure	Medium

Battery operated spray pump parts list

Smart Spraying with Precision & Power 💧

- ✓ Dual Mode Operation – Switch between High Pressure and Eco Mode in seconds
- ✓ Power When You Need It – Boost mode for tough jobs, save mode for regular spraying
- ✓ Extended Battery Life – Smart switching means less drain, more coverage

- ✓ Eco-Friendly Motor – Low emissions, energy-efficient, and earth-conscious power
- ✓ Silent Operation – Quiet performance to reduce noise pollution in your garden
- ✓ High Efficiency – Maximum spray coverage with minimal energy consumption
- ✓ Long-Lasting Durability – Built to handle tough gardening tasks while being gentle on the planet

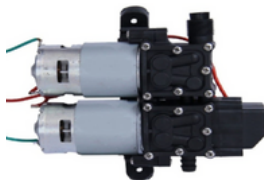

- ✓ Quad Nozzle Design – Four spray holes for even distribution across large areas, ensuring no patch is left behind

- ✓ Quick Charging – Full battery in just a few hours
- ✓ Overcharge Protection – Built-in safety to prevent battery damage
- ✓ LED Indicator – Know when it's charging and when it's ready

Effortless Spraying at Your Fingertips 🖐️

- ✓ Single Button Start – Just press and spray – no hassle, no confusion
- ✓ Consistent Power – Smooth and steady spray output for uniform coverage
- ✓ User-Friendly Design – Ideal for beginners, home gardeners, and daily use

- ✓ Eco-Friendly Motor – Low emissions, energy-efficient, and earth-conscious power
- ✓ Silent Operation – Quiet performance to reduce noise pollution in your garden
- ✓ High Efficiency – Maximum spray coverage with minimal energy consumption
- ✓ Long-Lasting Durability – Built to handle tough gardening tasks while being gentle on the planet

🔋 12V 9Ah Lead Acid Battery

Reliable Power for Your Devices and Equipment ⚡

- ✓ Long-Lasting Power – 12V, 9Ah capacity delivers consistent, reliable energy for your spray pump or other equipment
- ✓ Deep Cycle Design – Ideal for long-term use, providing sustained performance even through repeated charge cycles
- ✓ Durable & Safe – Built with a sturdy, leak-proof casing to withstand tough conditions

⚙️ Bearing 602

Smooth, Reliable Performance for Your Equipment 🏆

- ✓ High Precision Design – Engineered for optimal performance with minimal friction, ensuring smooth operation of your motor or machinery
- ✓ Compact & Durable – Small in size, but built tough to handle heavy loads and high speeds without compromising reliability

- ✓ 8-Hole Nozzle Design – Evenly distributes spray over a wide area for faster and more efficient coverage
- ✓ Adjustable Spray Modes – Switch from fine mist to jet stream, tailored to your task – watering, fertilizing, or pest control

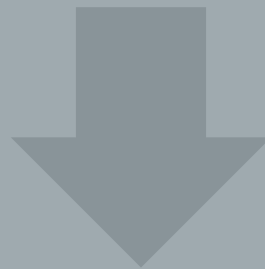

Plastic Trigger
Smooth, Durable Control at Your Fingertips

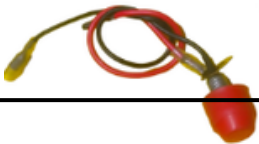

High-Quality Hose
Flexibility, Durability, and Performance for Every Task

Item	Description
Battery (Rechargeable)	Typically 12V or 16V lead acid or lithium battery providing power to the motor.
Pump Motor	DC motor that drives the pump for efficient spraying.
Spray Nozzle	Adjustable nozzle (e.g., fine mist, jet stream) for varying spray patterns.
Trigger / Spray Handle	Ergonomic trigger for easy control, often with a lock-on function for continuous spray.
Pump Tank (Reservoir)	Tank size typically ranges from 5L to 20L to hold liquids like water, pesticide, or fertilizer.
Hose	Flexible, durable hose that connects the tank to the spray nozzle, resistant to wear and chemicals.
Pressure Switch	Automatically controls the motor's operation based on internal pressure levels.
Battery Charger	Recharges the battery after use, typically compatible with standard wall outlets.
Extension Lance	Telescopic lance to extend reach for tall plants or hard-to-reach areas.
Filter	Mesh filter to prevent debris from entering and clogging the pump or nozzle.

Engine operated spray pump parts list

We deal in high-quality Spray Pump Spare Parts
Nozzles, pistons, pressure chambers, hoses, trigger guns, filters, seals & more – compatible with all major brands.

Spare Part	Example	Description / Use
Nozzle	Brass adjustable nozzle	Controls spray pattern – mist, jet, fan, etc.
Spray Lance/Wand	50 cm steel wand	Extends reach, especially for tall plants or trees.
Trigger Gun/Handle	Plastic trigger with lock	Hand-held control to release spray.
Pump Assembly	Manual piston or diaphragm pump	Creates pressure in the tank for spraying.
Tank Cap	Screw cap with breather hole	Seals the tank and allows safe pressurizing.
Shoulder Strap	Adjustable nylon strap	Helps carry the sprayer comfortably.
Pressure Relief Valve	Spring-loaded valve	Releases excess pressure to prevent damage.
Seals & Gaskets	Rubber or silicone O-rings	Prevents leaks at joints and pump areas.
Hose Pipe	1–2 meter flexible hose	Connects the tank to the spray lance.
Filter/Strainer	Mesh filter under the cap	Prevents debris from entering the pump and nozzle.
Piston/Diaphragm Kit	Spare internal pump parts	Used to repair worn-out pumping mechanisms.
Check Valve	Inline valve in pump	Allows one-way flow, prevents backflow.
Lock Nut / Fittings	Hose clamp, plastic or brass nuts	For secure connections between parts.
